## Количество электронных ресурсов в доступе СПбГУ (2004-2013)

# Статистика использования полнотекстовых ресурсов

- С 2004 по ноябрь 2013 год количество полнотекстовых документов, прочитанных пользователями СПбГУ выросло более чем в **10** раз и составило более **750 000**
- Из общего количества прочитанных документов **70 %** составляют статьи из научных журналов и **30 %** главы из книг

# МОРЕ ИНФОРМАЦИИ

изображение с сайта <http://ebooks.cambridge.org/>

# Поставщики электронной информации/ресурсов

- o **Издательства** (Elsevier, Springer, Oxford University Press, Cambridge University Press и др.)
- o **Агрегаторы** (EBSCO, JSTOR, ProQuest, Gale, OVID и др.)
- \* **Российские Электронные библиотечные системы** бывают издательскими («Лань» «Юрайт», «Айбукс» и др.) и ЭБС агрегаторов («БиблиоРоссика»)

# Классификация ресурсов по типу представленной информации

- Полнотекстовые (журналы, книги, газеты, диссертации, патенты и др.)
- Реферативные (содержат реферативную информацию)
- Наукометрические - ресурсы и инструменты- позволяют увидеть наукометрические показатели
- Специализированные базы данных (например, базы данных структурного поиска по химии или интерактивный медицинский атлас)

### Getting Started

#### Welcome to *Interactive Hand - 2013 Edition*

For a comprehensive guide to all the tabs, tools, and icons, please click on the Help icon in the top right corner.

#### QUICK START GUIDE TO USING *Interactive Hand*

##### 3D VIEWS

The 3D Views tab to the lower right of the screen displays a list of all available 3D views. Use this list to quickly navigate around the product.

##### ANATOMY

Explore the 3D anatomy using the Layer and Rotate controls at the bottom of the screen.

Add/remove layers of anatomy using the drop-down menu and the up/down arrows.

Rotate the 3D model using the left/right arrows - double arrows rotate by 9 frames in either direction; single arrows rotate by 1 frame.

Click on any structure in the image to highlight it and read related text.

You can Save or Print images and text at any time.

##### CONTENTS

Click on the Contents icon at the top left of the screen to open a list of expandable folders containing text articles for all structures as well as slides and 3D and MRI views.

##### INDEX

Click on the Index icon at the top left of the screen to list all anatomical structures, slides and 3D views alphabetically.

##### BOOKMARKS

Click on the Bookmarks icon to save a bookmark to the image, movie, or slide you are currently viewing. Bookmarks are stored in the program for next time, and are easily imported and exported.

##### WEBLINK

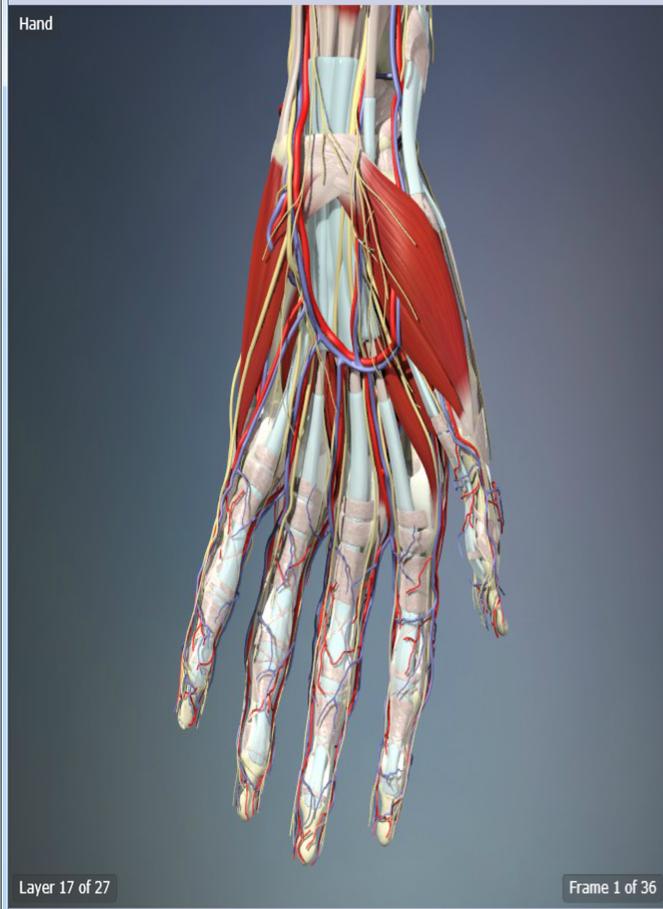

Click on the Weblink icon at the top left of the screen to save a URL to the image, movie, or slide you are currently viewing.

## Modeling of the Effects of Ion Specificity on the Onset and Growth of Ionic Micelles in a Solution of Simple Salts

Sofia V. Koroleva and Alexey I. Victorov\*

Department of Chemistry, St. Petersburg State University, Universitetsky Prospect 26, 198504 St. Petersburg, Russia

[Supporting Information](#)

**ABSTRACT:** A new version of the molecular thermodynamic model has been developed that takes into account the effect of ion specificity on the free energy of aggregation. The specificity of salt is reflected by differences in the bare ionic sizes and polarizabilities leading to the difference in the dispersion interaction of ions with the aggregate. The model also contains parameters that characterize the compactness of ionic pairs formed between a mobile ion and surfactant's headgroup. The values of these parameters show that more chaotropic heads form tighter pairs with chaotropic ions whereas more kosmotropic heads form more compact pairs with

Вы обращаетесь к ресурсам, которые, в соответствии с лицензионным соглашением, доступны только преподавателям, студентам и сотрудникам Санкт-Петербургского государственного университета.

Для продолжения работы Вам необходимо ввести данные единого читательского билета Научной библиотеки им. М. Горького СПбГУ или выполнить вход используя данные единой учетной записи пользователя СПбГУ.

Остальные пользователи могут перейти на данный лицензионный ресурс без регистрации. Возможно, какая-либо часть ресурса доступна для свободного использования, или Вы имеете доступ к ресурсу, предоставленный Вашей организацией.

[Вход на ресурс без регистрации](#)

Если у Вас возникли трудности при использовании данного сервиса, пожалуйста, сообщите в службу поддержки: [lib-ejadmin@lib.spbgu.ru](mailto:lib-ejadmin@lib.spbgu.ru).

**Удаленный  
доступ**

# Классификация ресурсов по языку

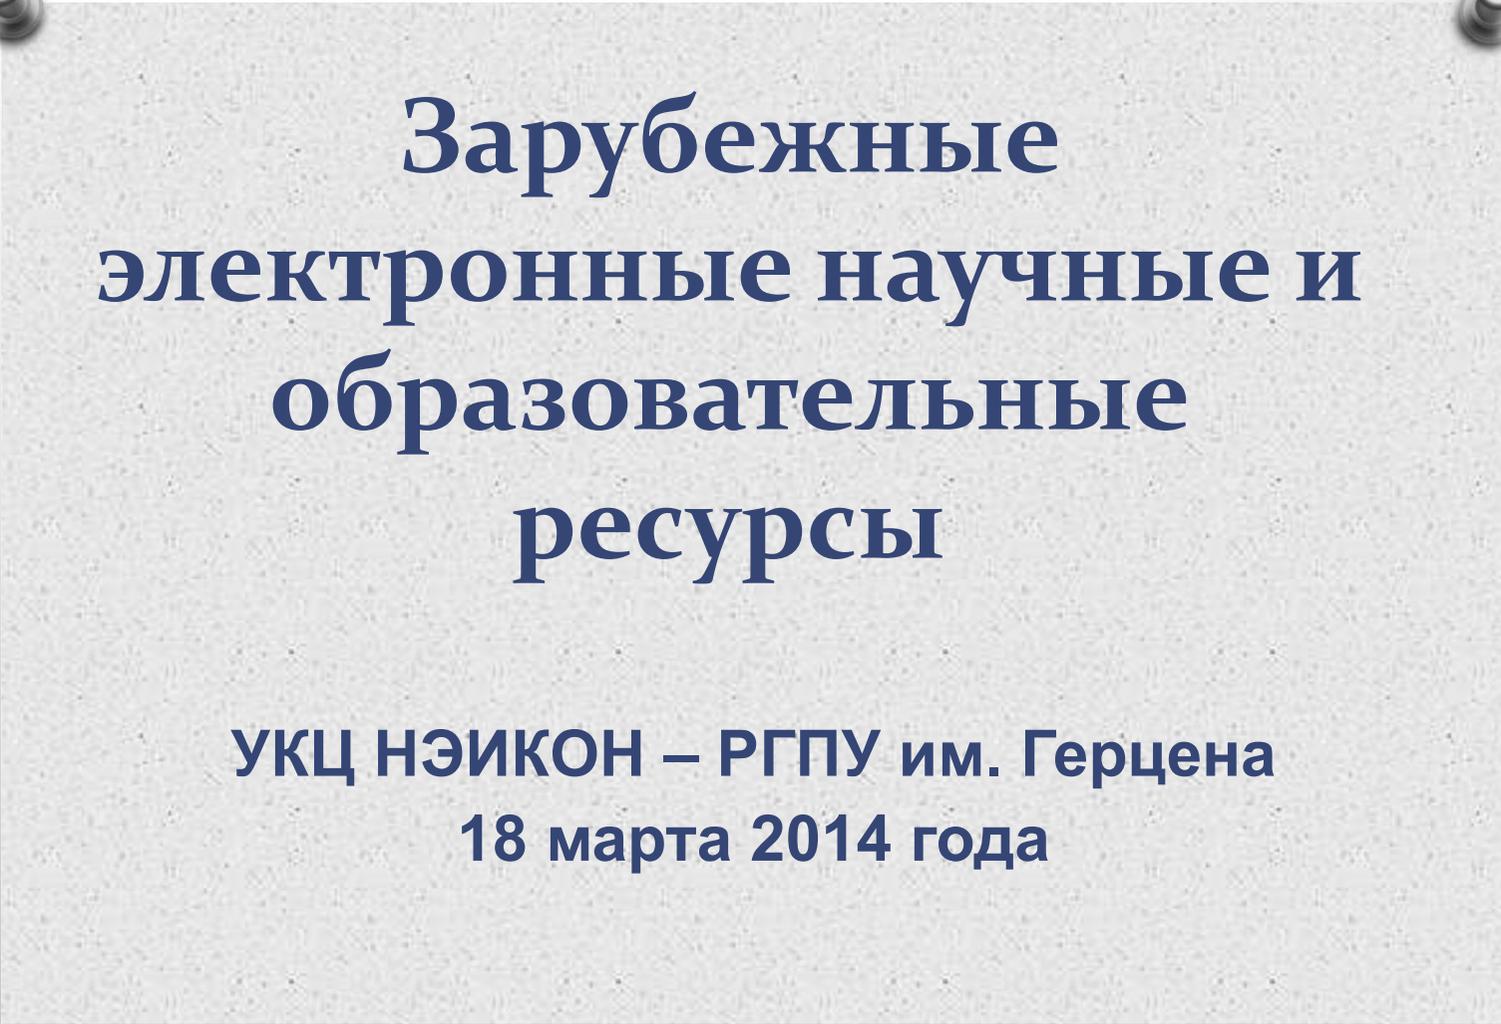

- o Российские
- o Зарубежные (большинство англоязычные, иногда с возможностью подключения интерфейса на другом языке)

## Электронные лицензионные ресурсы (правила пользования)

- o Разрешено использовать электронные ресурсы для научных и образовательных целей
- o Запрещено использовать электронные ресурсы в коммерческих целях
- o Запрещено использование специальных программ-роботов для скачивания полных текстов из электронных ресурсов а также «сплошное копирование» больших объемов информации

# Зарубежные электронные ресурсы 2014

- o Преобладают в репертуаре подписки российских университетов
- o Дают наибольший процент в статистике использования
- o Представляют постоянно меняющиеся интерфейсы
- o Предлагают новые сервисы для пользователей

**Зарубежные  
электронные научные и  
образовательные  
ресурсы**

**УКЦ НЭИКОН – РГПУ им. Герцена  
18 марта 2014 года**

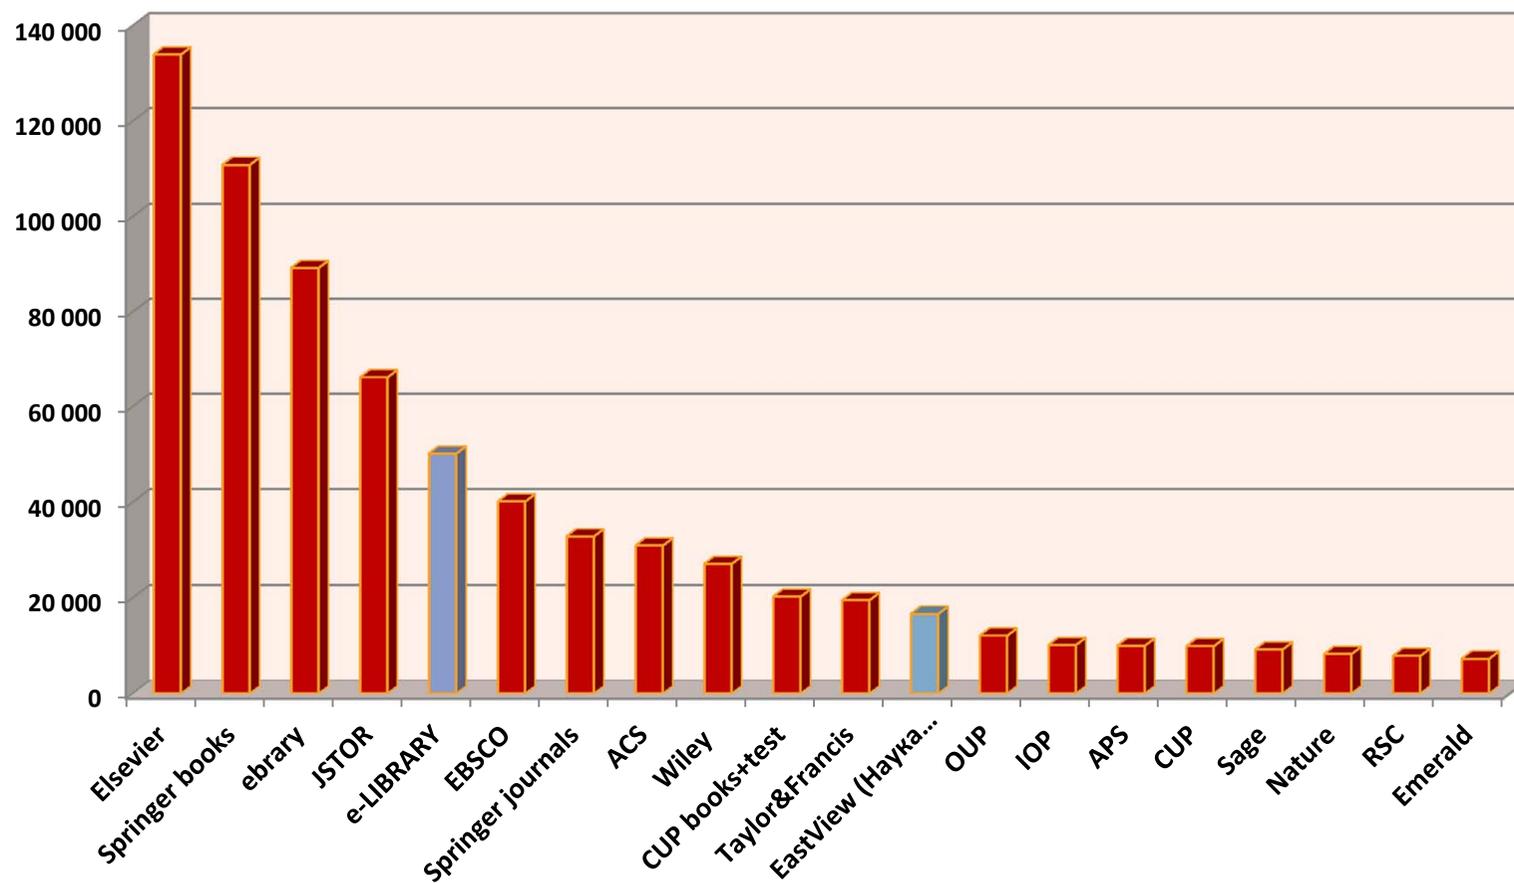

## Количество ресурсов в доступе СПбГУ

- o В 2013 году в доступе СПбГУ было представлено **160** ресурсов, из которых:
- o **82 %** составляют научные ресурсы и **18 %** - учебные ресурсы
- o **93 %** составляют зарубежные ресурсы и **7 %** - российские
- o **65** ресурсов, содержат научные журналы, **23** – книги и **13** являются наукометрическими

## Статистика использования полнотекстовых ресурсов в СПбГУ в 2013 году

- С 2004 по ноябрь 2013 год количество полнотекстовых документов, прочитанных пользователями СПбГУ выросло более чем в **10** раз и составило более **750 000**
- Из общего количества прочитанных документов **70 %** составляют статьи из научных журналов и **30 %** главы из книг

**Двадцать наиболее используемых в СПбГУ ресурсов  
(количество полнотекстовых документов,  
прочитанных в 2013 году)**

# Лидеры по использованию в СПбГУ в 2013 году

- Из двадцати наиболее используемых **12** ресурсов представлены издательствами (лидер Elsevier) и **8** ресурсов представлены агрегаторами (лидер ebrary)
- **9** ресурсов из двадцати, содержат полные архивы журналов с первого номера первого выпуска (самый старый журнал Philosophical Transaction датирован мартом **1665** года)

## Best Databases 2013

BY ELIZABETH MICHAELSON ON NOVEMBER 7, 2013 LEAVE A COMMENT

IN OUR ANNUAL roundup of best databases, there are the LJ equivalents of Paramount and Warner Bros.: high-profile producers of new and classic titles that command our attention and praise. Then there are the database versions of indie films: products from smaller companies that may be introduced with less fanfare but whose excellent content and usability ensure their recognition and popularity. While this year's list features a few winners from industry giants such as Gale/Cengage, ProQuest, and Elsevier, most nominees were from smaller and newer publishers including Zinio, Novel Data, Plum Analytics, and Rosen Digital. This shows welcome diversification in the market, with the development and growth of these small, independent database producers promising an increasingly wide range of exciting options for librarians and patrons.

So, from the well-established big names to the start-ups, here as chosen by librarians who were polled by LJ are the best databases of 2013: the blockbusters, the sleeper hits, and the classics. (See also [New Database Releases](#).)

**Les étapes du développement de l'apprentissage de la lecture : étude longitudinale en maternelle et en première année**

Cette étude a testé une hypothèse relative au développement de la connaissance du mot chez des lecteurs de maternelle et de première année. On a prédit que a) la conscience phonémique se développe par étapes, et b) que le concept de mot dans un texte (la capacité à lire ce qui est montré du doigt) est en interaction avec la conscience phonémique dans le développement du savoir lire en ses débuts. Un modèle par équation structurelle a montré que les données longitudinales s'ajustent au modèle hypothétique. Les résultats sont également conformes à la séquence développementale prédite par une analyse descriptive du changement de la performance médiane au cours du temps. La relation mise en évidence entre la conscience phonémique et le concept de mot dans un texte demande des études ultérieures en ce qui concerne les implications pédagogiques correspondantes.

**Развивающие шаги в обучении чтению: длительное исследование в детском саду и первом классе**

НАСТОЯЩИМ исследованием проверялась гипотеза о развитии знания о словах у детей, посещающих детский сад и первый класс. Предполагалось, что при развитии первоначальных навыков чтения (а) фонематическое понимание развивается на уровне фраз, а (б) концепция слова как части текста (способность читать, вода нальем от слова к слову) взаимосвязана с фонематическим пониманием. Моделирование структурного равенства показало, что данные длительного исследования соответствуют взаимосвязи

## Register & Read

Register & Read offers individual scholars and researchers free, read-online access to approximately 1,300 journals and 4.5 million articles. Sign up now for a JSTOR account and, every two weeks, read up to three articles for free.

### How to Get Started

1. Register for a free MyJSTOR account.
2. When you find an article on JSTOR in the Register & Read program, click Read Online Free.
3. Add it to your shelf and read the full text online. After 14 days, you may remove it and add new items.

PDF versions of some articles are also available for purchase and download. Or, purchase a 1-Month or 1-Year access plan with JPASS.

# Платформа Science Direct

- o Представляет полнотекстовые ресурсы Elsevier
- o Более 2 500 журналов (более 12 млн. статей)
- o Журналы представлены с первого номера первого выпуска (самый старый 1823 г.)
- o Более 20 000 книг (монографии, книжные серии, справочники, энциклопедии)

# Архивы Elsevier

- 17 декабря 2013 года для СПбГУ дополнительно к имеющейся подписке открыт доступ к **21** архивной коллекции журналов издательства Elsevier (**с первого выпуска журнала по настоящее время**) по следующим предметным областям:

Agricultural and Biological Sciences — с 1896 года

Biochemistry, Genetics and Molecular Biology — с 1947 года

Business, Management and Accounting — с 1958 года

Chemical Engineering — с 1946 года

Computer Science — с 1958 года

Decision Sciences - с 1963 года

Earth and Planetary Sciences — с 1859 года

Economics, Econometrics and Finance — с 1967 года

Energy and Power — с 1948 года

Engineering and Technology — с 1967 года

Environmental Science — с 1961 года

High Energy/Nuclear Physics and Astronomy — с 1955 года

Immunology and Microbiology — с 1951 года

Inorganic Chemistry — с 1955 года

Materials Science — с 1946 года

Mathematics — с 1826 года

Organic Chemistry — с 1957 года

Physical and Analytical Chemistry — с 1939 года

Physics General — с 1934 года

Psychology — с 1943 года

Social Science — с 1949 года

Open access

Access to quality research is vital to the scientific community and beyond. We support sustainable access and work hard to provide a range of open access options alongside our access initiatives to ensure everyone can read, use and trust the latest research.

We are committed to working in partnership with the research community, librarians, funders and other stakeholders. Our Elsevier team are continually on the road meeting the community, participating in discussions and establishing partnerships which will help support increase access to research. SD) has been increasingly used for *en bloc* resection of difficulties during ESD is to mobilize the partially resected lesion, complication rates. We developed a new "yo-yo technique", that not only pulling, but also pushing the lesion during ongoing ESD.

the "yo-yo technique" for ESD.

and partial dissection are performed. Then, a hemoclip is placed on the lesion. Afterwards, a conventional snare is introduced through the mouth, the hemoclip is grabbed with the snare. Due to the moderate tension, the lesion can be pulled or pushed during ongoing ESD, independently of the direction. This increases the visualization of the dissection plane, reducing the risk of complications.

These techniques allow easier ESD with better access to the submucosal space and to the lesions' distal margins. Lesions can be successfully and safely removed and *en bloc* resection

Open archives

Open access to archived research

Elsevier enables subscribers and the general public to have open access to archived material in 97 Elsevier journals. This includes all Cell Press articles after 12 months via the Cell Press website.

Articles are made open access after an embargo period which begins from the final publication date of the article. The embargo periods are determined by the characteristics of the journal including subject area, usage patterns and frequency of publication.

Articles featured in the archives are permanently free for everyone to read and download with permitted re-use.

## Открытый доступ – зеленый путь (размещении публикации в репозитории или на собственном сайте автора в Интернет)

[Elsevier locations](#)[Mission](#)[Senior management](#)[Experts](#)[Subject information](#)[Publishing guidelines](#)[Corporate responsibility](#)[Open access](#)[Open access journals](#)[Open access articles](#)[Open archives](#)**Green open access**[Funding body agreements](#)[Institutional agreements](#)[Policies](#)[Elsevier and open](#)

This is the process of posting a free draft copy of your article to a repository or your website. Unlike the gold open access model, there are no fees for the author to pay under the green model of open access. Instead the publication costs are paid for by subscriptions, which enable readers to access the final published version of the journal article.

### Our approach

Elsevier has a journal-specific [posting policy](#) which varies according to the version of the article to be posted, and when/how it is posted. Further details on permitted reuse can be found in our [open access license policy](#).

In most cases our posting policy is as outlined in this table:

**Preprints:** Immediate post and dissemination of preprints is allowed anywhere at any time, except for articles published in Cell Press titles.

**Accepted author manuscripts (AAM):** Immediate posting and dissemination of AAM's is allowed to personal websites, to institutional repositories, or to arXiv. However, if your institution has an open access policy or mandate that requires you to post, Elsevier requires an agreement to be in place which respects the journal-specific embargo periods. Click [here](#) for a list of journal specific embargo periods (PDF) and see our [funding body agreements](#) for more details.

**Published journal article (PJA):** May only be posted where a gold open access fee has been paid and the article contains the [CrossMark logo](#). Gold open access articles have additional [user rights](#) determined by their choice of publication license. For specific details and restrictions on posting and reuse, please refer to the journal's homepage.

ScienceDirect is a leading full-text scientific database offering journal articles and book chapters from more than 2,500 peer-reviewed journals and more than 25,000 book titles. The sophisticated search and retrieval functionality enables users to effectively discover content relative to their research needs. Use our video tutorials and printable quick tip sheets to learn how to access articles at an early publication stage, discover supplementary material such as videos and datasets linked to articles, download multiple documents that can be stored, printed, and passed to colleagues, and more.

## Acta Materialia

Published on behalf of [Acta Materialia Inc.](#)

Welcome to the online submission and editorial system for *Acta Materialia*.

Acta Materialia provides a forum for publishing full-length, original papers and commissioned overviews which advance the in-depth understanding of the relationship between the processing, the structure and the properties of inorganic materials. Papers which have a high impact potential are sought.

The structure encompasses atomic and molecular arrangements, chemical and electronic structures, and microstructure. Emphasis is on either the mechanical or functional behavior of inorganic solids at all length scales down to nanostructures.

The following aspects of the science and engineering of materials are of particular interest:

**Детальные  
руководства  
для авторов**

(i) Edge experiments and theory as they relate to the understanding of the properties,

(ii) Synthesis and modeling preferably combined with characterization specifically as they relate to the understanding of the properties,

(iii) Elucidation of the mechanisms involved in the synthesis and processing of materials specifically as they relate to the

## Surgery for Obesity and Related Diseases

Volume 8, Issue 4, July–August 2012, Pages 371–374

Original article

### Effect of bypassing the proximal gut on gut hormones involved with glycemic control and weight loss

Dimitri J. Pournaras, M.R.C.S.<sup>a,b</sup>, Erlend T. Aasheim, M.D., Ph.D.<sup>a</sup>, Marco Bueter, M.D.<sup>a</sup>, Ahmed R. Ahmed, F.R.C.S.<sup>a</sup>, Richard Welbourn, M.D., F.R.C.S.<sup>b</sup>, Torsten Olbers, M.D., Ph.D.<sup>a</sup>, Carel W. le Roux, M.R.C.P., Ph.D.<sup>a</sup>

<sup>a</sup> Imperial Weight Centre, Imperial College London, Charing Cross Hospital, London, United Kingdom

<sup>b</sup> Department of Bariatric Surgery, Musgrove Park Hospital, Taunton, United Kingdom

Open Access

#### Abstract

#### Background

The reported remission of type 2 diabetes in patients undergoing Roux-en-Y gastric bypass has brought the role of the gut in glucose metabolism into focus. Our objective was to explore the differential effects on

Early Career Researchers

Share This:

Welcome to Elsevier's Early Career Resources site. The **Career and funding** section offers advice on how to plan a successful research career, partly best achieved by also keeping **Ethics in research and publishing** in mind. **Search and discovery** tools can help you identify relevant scientific information and combined with **Writing and publishing** resources, improve your chances of getting published. Our **Networking** pages show why it's important to maintain a network and we give advice on how to start. Download free guides from **Guides and recommended Reading** and visit our **Training and workshops** area to listen to webcasts and to get useful 'crib sheets' to point the way on your career journey.

Writing and Publishing

What will it take to get your work published and in front of the world?

A great scientist uses simple language to explain complex ideas. Learn new ways to disseminate your research and understand the publishing process.

<http://www.elsevier.com/early-career-researchers/home>

## Promoting integrity in research publication

COPE is a forum for editors and publishers of peer reviewed journals to discuss all aspects of publication ethics. It also advises editors on how to handle cases of research and publication misconduct. [Read more about COPE...](#)

### About Elsevier S&T Books

#### Elsevier as your publishing partner

Elsevier is a world-leading publisher of scientific, technical and medical resources with 7,000 employees in more than 70 locations around the world. We produce more than 2,200 new titles a year, published internationally in 11 languages, and have over 20,000 books available to support researchers, professionals and students across the globe.

Our authors represent a broad range of specialty areas and are among the most well-respected and authoritative professionals in their communities. We invite you to join a community of world-renowned thought leaders who have published books with Elsevier.

#### Where does S&T Books fit in?

Elsevier's Science and Technology Books—S&T Books—division reaches out to researchers, professionals and students across life sciences,

and application of science and technology through the delivery of targeted, reliable information to support research, learning and professional practice.

## Chapter 1

### Reflecting on Confocal Microscopy: A Personal Perspective

John White

#### Abstract

The first practical laser scanning confocal microscopes were introduced to the biomedical community over 30 years ago. Their subsequent development continues to influence the introduction of new methods and applications of optical sectioning microscopy.

**Key words** Confocal, Laser scanning, Optical section, Fluorescence, Living tissue, Three-dimensional imaging

#### 1 Introduction

The three-dimensional nature of biological structures has presented a fundamental challenge to microscopists over the years. This is because images are often obscured by interfering signals from

## SpringerOpen books

The growing demand for open access publishing across all disciplines has led Springer to expand our open access program to fully open access books. As a further addition to our already established [SpringerOpen journal portfolio](#) we now offer authors in a wide range of areas within science, technology and medicine (STM) the option to publish open access books.

## Why publish a SpringerOpen book?

### Freely available online

SpringerOpen books are freely and immediately available online at [SpringerLink](#) upon publication and are clearly labeled as 'open access'. They are accessible to anyone worldwide, which ensures distribution to the widest possible audience.

### High visibility

In addition to [SpringerLink](#) all SpringerOpen books are listed in the [Directory of Open Access Books \(DOAB\)](#), increasing visibility and discoverability for your work. They are also automatically included in Springer's eBook Collections at no additional charge to ensure maximum distribution.

### Authors retain copyright

## SpringerOpen books A-Z

The following books have already been published with SpringerOpen. They are freely available online at [SpringerLink](#) and listed in the [Directory of Open Access Books \(DOAB\)](#):

- Agricultural Implications of the Fukushima Nuclear Accident
- Bisociative Knowledge Discovery
- Environmental Leadership Capacity Building in Higher Education
- Essential Speech and Language Technology for Dutch - Results by the STEVIN-programme

Available Courses

**Онлайн курсы для  
авторов  
от Springer**

### How to Write and Submit a Journal Article

Overcoming barriers to publication success

Clearly communicate your research so that other scientists will read and cite it. Find advice on structuring your manuscript, the use of tables and figures, as well as submitting and dealing with peer review in this e-learning

### Publishing a Journal Manuscript – the Groundwork

Boost your manuscript's chances for acceptance in international journals

Learn what journal editors are looking for and how to shape your manuscript to increase your chances of publication success. This course offers the basics you

### Peer Review Academy

Why is peer review essential? Which rules does it follow? How does an author best deal with it?

Through peer review, your research methods and findings are closely examined and thus verified. It is meant to help you shape your manuscript, establishing trust in the validity and relevance of your research

### Book Author Academy

Why write a book?

Writing a book will help you bring together years of research and reading into a single, comprehensive work. It will establish you as an expert on your chosen topic. A book serves as a kind of business card: it helps define your reputation in your chosen field.

**Main Entry:**  
de·sign /dəˈzɪn/  
**Definition(s):**  
noun:  
1. a plan or drawing produced to show the look and function or workings of a building, garment, or other object before it is built or made.  
(i) the art or action of conceiving of and producing such a plan or drawing.  
(ii) an arrangement of lines or shapes created to form a pattern or decoration.

Five Housing Environments: Universal Design as a Rehabilitation Strategy for Aging in

**FIVE**

Housing Environments: Universal Design as a Rehabilitation Strategy for Aging in Place

There is a direct relationship between rehabilitation and housing. When an individual has a chronic condition, impairment, or age-related functional declines, health concerns are virtually indistinguishable from housing concerns, particularly in an aging housing stock (Lawler, 2001). Housing can be, at the same time, prosthetic and therapeutic, compensating for limi-

Author Biography

**Jon A. Sanford, MArch**, is the Director of the Center for Assistive Technology and Environmental Access (CATEA) and an Associate Professor of Industrial Design in the College of Architecture at Georgia Tech, where he teaches courses on universal design and design for healthy aging. At CATEA, he is the Co-Director of the Rehabilitation Engineering Research Center on Workplace Accommodations, which is a 5-year grant supported by the National Institute on Disability and Rehabilitation Research (NIDRR). Mr. Sanford is also a research architect at the Rehabilitation Research and Development Center of Excellence at the Atlanta Veterans Affairs Medical Center.

Mr. Sanford is one of the few architecturally trained researchers engaged in accessible and universal design and has been well recognized for his expertise in home modifications, workplace accommodations, and design for aging for over 25 years. He is one of the authors of the *Principles of Universal Design*, and his research spans all scales of design from toilet and bathing facilities, to community barriers to mobility.

He has contributed over 250 articles, book chapters and professional presentations to the field, and he is a member of several editorial boards, including *Housing for the Elderly*, *Journal of Applied Gerontology*, *Australian Journal of Rehab Counseling*, and *Journal of Physical and Occupational Therapy in Geriatrics*. In addition, Mr. Sanford is an active member of several professional associations, including Gerontological Society of America (where he was the Chair of the Physical Environments and Aging Informal Interest Group from 2005 to 2008), American Society on Aging, where he was the Chair of the Network on Environments Services and Technologies from 2006 to 2009, and the Rehabilitation Engineering Society of North America.
