**Про издательство** - Издательство Кембриджского университета – старейшее издательство в мире, первые книги были опубликованы им в 1584 году. За четыре века своего существования издательство выпустило многие книги известных ученых - Исаака Ньютона, Джона Мильтона, Бертрана Рассела, Альберта Эйнштейна, но лишь к середине двадцатого века оно развилось в крупнейший современный издательский дом, которым является сегодня. В издательстве работают около тысячи человек, а его филиалы и представительства имеются в США, Австралии, Латинской Америке, Африке, Азии и практически во всех странах Европы, включая Россию.

Издательство Кембриджского университета - некоммерческая организация, и его доходы используются лишь для расширения издательской деятельности. Оно управляется Синдикатом Кембриджского университета - официальным комитетом, состоящим из ведущих профессоров, которые регулярно встречаются для обсуждения подготовленных к печати изданий.

## Geological Magazine

[New Content Alerts](#) [Journal Widget](#)

[About Widget](#)

**Editors** Mark B. Allen, *University of Durham, UK*  
[Editorial Board](#)

*Geological Magazine*, established in 1864, is one of the oldest and best-known periodicals in the Earth Sciences. Its worldwide circulation, broad scope and high production values keep the journal at the forefront of the field. It publishes original papers, review articles, rapid communications and discussions about all aspects of the geosciences. It covers petrology, geochemistry, palaeontology, sedimentology, stratigraphy, structural geology, geophysics, and geomorphology, and it includes contributions on volcanology, marine geology, glaciology, palaeoclimatology, palaeoceanography, geochronology, biostratigraphy, geohazards and Earth history, providing a niche for interdisciplinary papers on regional geology and Earth history.

The archive of this journal is available as part of the *Cambridge Journals Digital Archive*, for more information please click here.

### READ THIS JOURNAL

[View Current Issue \(Volume 113 Issue 4 March 2014\)](#)

*Annals of Botany* is an international plant science journal that publishes novel and substantial research papers in all areas of plant science, along with reviews and shorter Botanical Briefings about topical issues. Each issue also features a round-up of plant-based items from the world's media - 'Plant Cuttings'.

*AoB* is published monthly with extra issues that focus on particular themes. The Journal is owned by The Annals of Botany Company, a not-for-profit charity established to promote plant science. For authors, there are no page charges, colour is free and review is rapid and rigorous; open access options are competitive.

[Ionic liquids as green electrolytes for the electrodeposition of \*\*nanomaterials\*\*](#)

AbedinPermanent address: Electrochemistry and Corrosion Laboratory, National Research Centre, Dokki, Cairo, Egypt. S. Zein El; Pilleth M.; Meiss S. A.; Janek J.; Endres F. (2007-05-17)

Ionic liquids, especially air and water stable ones, experience much attention, since they have attractive physical **properties**. We exemplify in this paper the potential of ionic liquids in the electrodeposition of nanocrystalline metals without...

## Подписка

### Архив научных журналов

В рамках контракта с МинОбрНауки НЭИКОН предлагает своим участникам доступ к архивам научных статей западных издательств на платформе [archive.neicon.ru](http://archive.neicon.ru)

#### Доступ для участников консорциума бесплатный.

В соответствии с Лицензионным(и) соглашением(ями) между издателем(ями) и НП «НЭИКОН», доступ к архиву(ам) может получить любая некоммерческая организация-участник Консорциума.

Все вопросы по возможности получения доступа для новых участников консорциума, не вошедших в Лицензии, можно задавать по адресу [razina@neicon.ru](mailto:razina@neicon.ru)

Ниже Вы найдете информацию по каждому архиву и список организаций, вошедших в лицензии.
