At a glance

As the world's leading provider of science and health information, Elsevier serves more than 30 million scientists, students and health and information professionals worldwide. We partner with a global community of 7,000 journal editors, 70,000 editorial board members, 300,000 reviewers and 800,000 authors to help customers advance science and health by providing world-class information and innovative tools that help them make critical decisions, enhance productivity and improve outcomes.

Headquartered in Amsterdam, we are a global company employing more than 7,000 people in 24 countries. We are a founding publisher of global programs that provide free or low-cost access to science and health information in the developing world. Elsevier's roots are in journal and book publishing, where we have fostered the peer-review process for more than 130 years. Today we are driving innovation by delivering authoritative content with cutting-edge technology, allowing our customers to find the answers they need.
