

Открытая информация в “закрытом мире”

28 мая 2021 года, СПб, РГПУ им. Герцена

2020 заставил нас:

- Остановится и задуматься...
- Стать другими...
- Воспринимать все реальное как чудо...

«КАДРЫ. УПРАВЛЕНИЕ. БЕЗОПАСНОСТЬ»

Информация, а особенно электронная

- Разнообразна и бесконечна
- Не имеет границ
- Способна поглотить человека
- Может быть «закрытой» и «открытой»

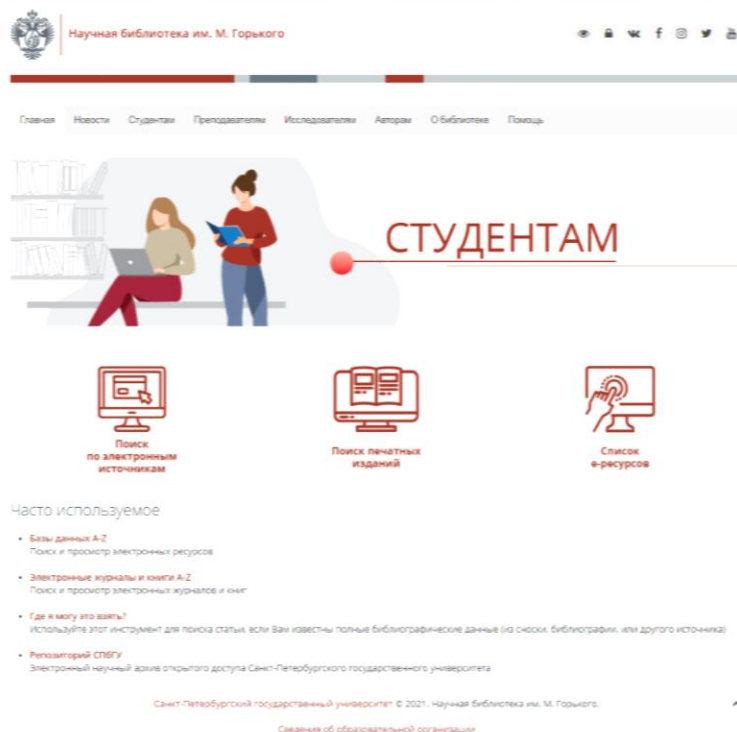

Электронная информация - библиотека

- Требуется не меньшей заботы, чем печатная
- Теряет смысл без четкой системы управления
- Приобрела особую ценность в период пандемии
- Цитата пользователя «..библиотека полезна даже в электронном режиме...»

Изменчивое постоянство

Научная библиотека им. М. Горького

EZproxy®

Overview EZproxy Analytics EZ proxy Service options Request a quote Need support or training?

Streamline and secure access to e-resources

EZproxy allows libraries to deliver e-resources to users simply and securely no matter where or when they're searching. EZproxy was built to advance the crucial role libraries play in protecting patron privacy and influencing learning outcomes, making it a trusted e-resource access and authentication solution. Thousands of libraries in over 100 countries use EZproxy to facilitate secure, reliable access to e-resources.

AVAILABLE NOW

EZproxy® Analytics

Make more informed, data-driven decisions. EZproxy Analytics provides advanced analytics capabilities to users of EZproxy hosted for an additional subscription. It's a turnkey service that extracts, enriches, and transforms complex data into simple visual dashboards, making it easy to better understand and communicate e-resource ROI.

[Learn more](#)

Connect your users to library resources with a single sign-on

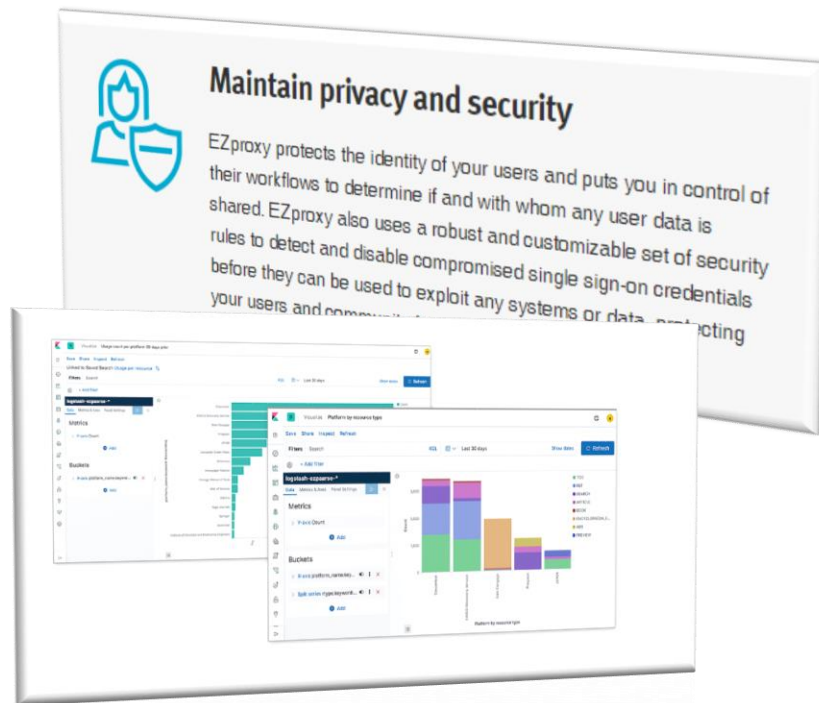

EZproxy provides your users with continuous access to e-resources without the hassle of remembering multiple passwords and usernames.

Simplify e-resource access

EZproxy seamlessly connects your users to the e-resources they need for school and research using their existing single sign-on credentials. EZproxy connects on their behalf with an authorized IP address as their provider's permit access. You can configure it to grant access by groups to meet learning needs and use it to support diverse curriculum areas if needed to meet content providers.

Maintain privacy and security

EZproxy protects the identity of your users and puts you in control of their workflows to determine if and with whom any user data is shared. EZproxy also uses a robust and customizable set of security rules to detect and disable compromised single sign-on credentials before they can be used to exploit any systems or data, protecting your users and community from security threats.

Maintain privacy and security

EZproxy protects the identity of your users and puts you in control of their workflows to determine if and with whom any user data is shared. EZproxy also uses a robust and customizable set of security rules to detect and disable compromised single sign-on credentials before they can be used to exploit any systems or data, protecting your users and community from security threats.

The dashboard displays various metrics and charts, including a bar chart showing 'Patrons by research type' and a table of 'Patrons by research type'.

Patrons by research type	Count
Business	100
Healthcare	80
Education	60
Government	40
Non-profit	20
Other	10

JSTOR resources during COVID-19

Last updated: May 3, 2021

To support our institutions during this challenging time, JSTOR and our participating publishers are making an expanded set of content freely available to our participating academic institutions where students have been displaced due to COVID-19.

Expanded free access for participating institutions

- **Access to unlicensed collections** for participating academic institutions that currently license some, but not all, JSTOR Archive and Primary Source collections – **EXTENDED THROUGH JUNE 30, 2022**
- **Access to Artstor**'s core collections of 2.5+ million images and research tools for participating higher education institutions that currently license JSTOR but not Artstor. Through June 30, 2021

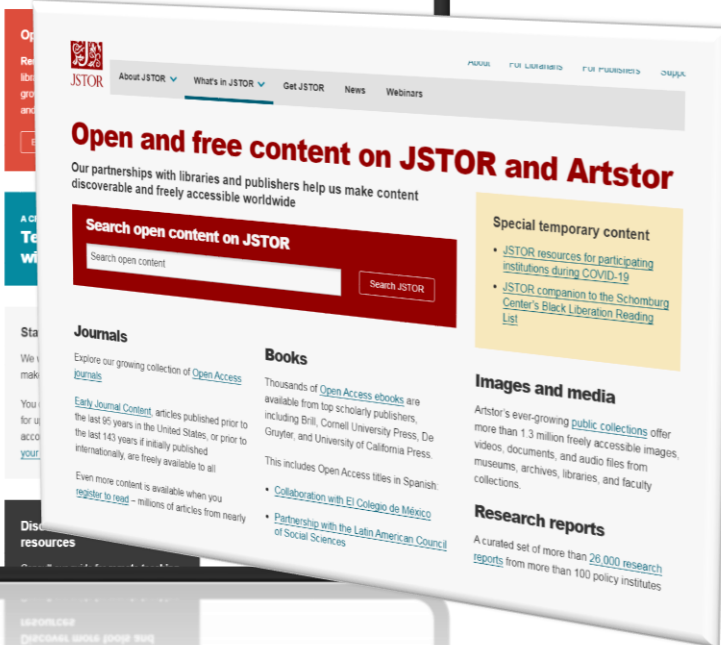

[Log in to your JSTOR library admin account to request expanded access](#)

Expanded free access for everyone

- **6,000+ selected journal articles related to COVID-19** — articles cover important topics such as coronavirus, communicable disease control, distance education, health surveillance, and more. Through June 30, 2021
- **Free read-online access** has expanded from six to 100 articles per month

Resources to help with access, instruction, and virtual learning

- We may be able to enable **remote access for public libraries** that have closed their physical branches
- Instructions for remote user access during COVID-19

Lean Library/EndNote Click

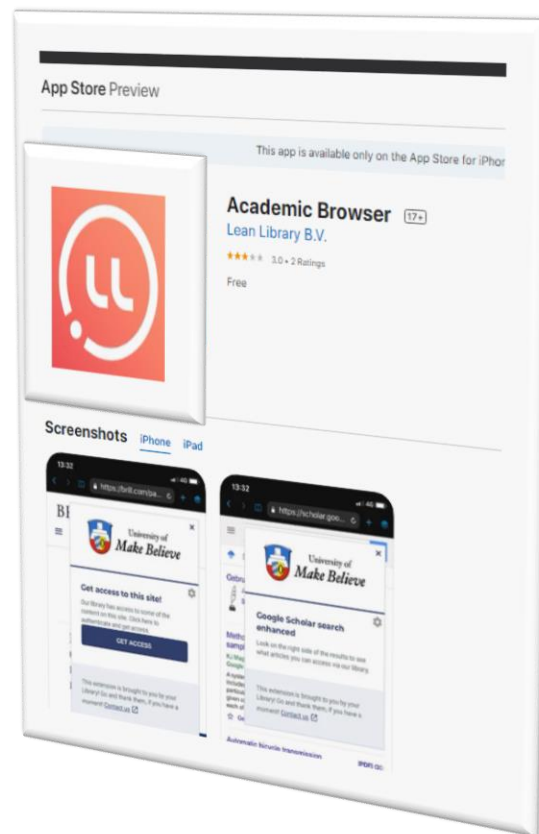

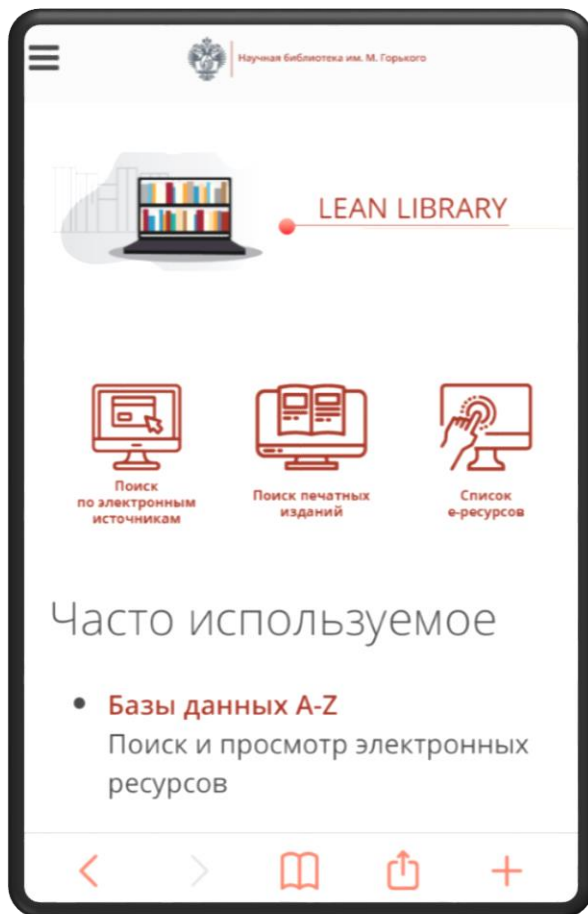

The image is a collage illustrating a workflow for accessing research papers. It features three main devices:

- Laptop Screen:** Displays a PubMed search result for "thoracic surgery". The title is "New Guidelines and Position papers in the European Journal of Cardio-Thoracic Surgery" by Anders Jeppsson and Friedhelm Beyersdorf. A green arrow points from the "Open PDF" button on the laptop to the smartphone screen.
- Tablet Screen:** Shows the St. Petersburg University login page. A red button labeled "ПЕРЕХОД НА СТАТЬЮ" (Go to article) is highlighted with a green arrow.
- Smartphone Screen:** Shows a PDF download button labeled "Открыть PDF" (Open PDF) with a green arrow pointing to it.

The background of the collage is a blue and green abstract image, possibly representing a globe or a molecular structure.
